

How to Create Your Own Fundraising Website for CDR's Vineyards Race - August 8, 2009

1. Log onto www.firstgiving.com
2. Where it says "Find a Nonprofit", enter Child Development Resources and hit the "Go" button.

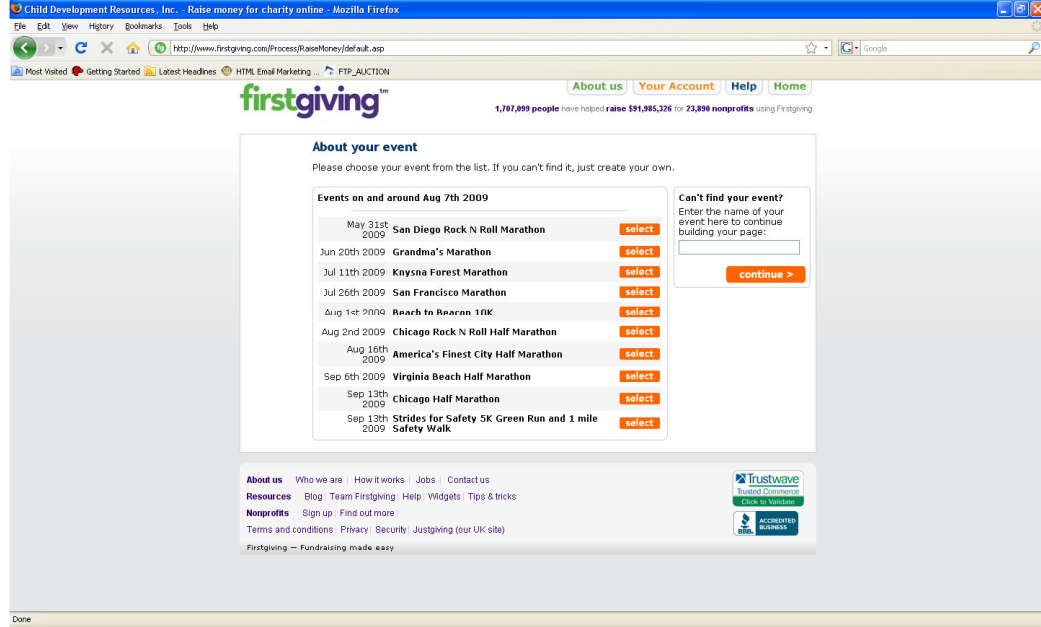

3. The next screen will show Child Development Resources (not pictured). Click on Child Development Resources and it will take you to the below page. Within the center box, where it asks "Want to raise money for this nonprofit?" click "Get Started"

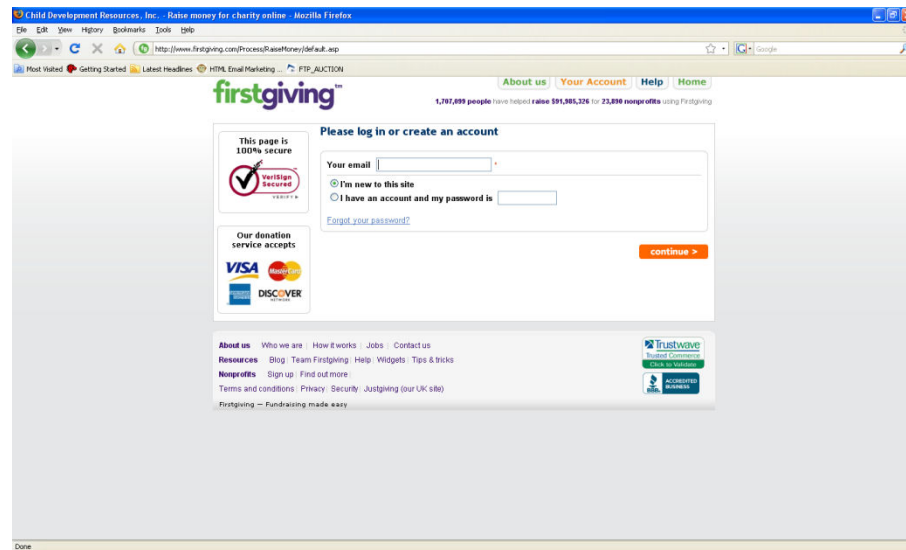

4. The next page asks "What sort of page would you like to create?". Select sporting. On the next screen, choose running or walks dependent upon which you are doing and the date (August 8, 2009). Hit the Continue button.

- On the next page, it will show you a myriad of events. Instead you will insert *Vineyards 5K Run/Walk* under the area that says “Can’t Find Your Event?” and hit the continue button.

- Enter your email address and keep the “I’m new to this site” button checked. Hit continue – the next page will ask for your information. Once you hit enter again, your page will be created for you.

- When you get to your page, you can customize your target goal (we recommend \$500 or more, but do what you are comfortable with), edit your message, insert graphics, etc. Save your page and continue. Next you can email recipients – the more folks you get involved to support you, the better the results! (It can download addresses for you too).
- Your page will go live – remember to send periodic updates to people reminding them to sponsor or thanking them for doing so!

Thank you for raising dollars for CDR!
